MESSAGE

**AMBASSADE DE LA REPUBLIQUE
TOGOLAISE EN INDE
EMBASSY OF THE REPUBLIC OF
TOGO IN INDIA
NEW DELHI**

AKAKPO Koffi
Chargé d'Affaires

First of all, I would like to thank the Indo-African Chamber of Commerce and Industries for its on going efforts with African countries in general and Togo in particular, which aimed to strengthen bilateral co-operation between our countries. I would also like to take this opportunity to thank the community of Indian business-men for their commitments alongside the Togolese authorities in the implementation of its ambitious programs who are transforming Togo as a new Swiss land of Africa.

If it is true that money does not like noise, it is also certain that the business

community doesn't like sociopolitical instability. As elsewhere, Togo has experienced hard times considering the economic policy plan. But thanks to the political commitment of citizen mobilization and political actors of civil society, we have solved this issue, turning a page and are committed to the future by having a vision that now includes the obligation to provide results on the pediment of the city.

The government's strategy, drawing lessons from its recent past, is to continue to strengthen the democratic gains under the democratic and economic governance, to develop and modernize

the infrastructure while relying on the growth sectors of mining, energy, tourism, culture, telecommunications, SMEs / SMIs and agriculture in order to fund more sectors like social/health, education and water for the benefit of the people.

Thus, since 2006, under the leadership of the President, various successive reforms in Togo in the economic and financial sectors and in the political and social field have been made to create a new country reconciled with itself and with its partners.

The economic consolidation of the structuring sector of the economy is a "must have" not only in the development and upgrading of major infrastructure mentioned earlier, but also in services.

In this movement forward, we intend to

implement in the coming years to meet the challenges of the changing world and to raise Togo among the emerging countries by 2030.

The government's efforts for the improvement of governance and the business environment have also been fortified by several other actions including:

- the adoption of a new procurement code published in accordance with international standards;
- simplification of procedures for creation of companies, that is three days, by setting up a one-stop call Center for Business Formalities and;
- The creation of the Arbitration Tribunal of Togo.

In any case, we are anxious to strengthen

communication for better effectiveness and efficiency in business management.

In an interdependent world full of uncertainties, where we saw repeated crises in terms of economic, financial, food, energy and weight of the effects of climate change, no one can close on itself.

On the contrary, the new economic world invites to strengthen international cooperation and promoting a win-win partnership. This is the role to be played by the private sector, the spearhead of economic growth.

It is with this spirit that we are publishing this information to help you to explore, with the leaders of your Company, the business opportunities in Togo and boost business relations between trade circles of both countries for the revival of the cooperation between India and Togo.

A wide range of Togolese businesses are affiliated with the Chamber of Commerce and Industry of Togo, in diverse areas as finance, general trading, industrial processing and manufacturing of agricultural products, transport, construction and civil engineering, computer science, telecommunications, hospitality and restoration. I can assure you of the determination of the Chamber of Commerce and Industry of Togo playing

its role of an avant-gardist, accompanying traders, as it has always done, through economic information, the setting up of relations with Togolese and foreign companies, the formalities for setting up businesses, etc.

I warmly invite Indian companies to seize the many business opportunities that Togo offers by investing with safety and confidence in Togo.

Togo, today, is a country which is a work-in-progress. Everything is under construction, renovation or reformation. Togo is today synonymous with social cohesion of social and political stability, dialogue and of adherence to universal standards in the matter of economic and democratic governance.

I thank you very much & God Bless...!

**INDO-AFRICAN CHAMBER OF
COMMERCE & INDUSTRIES**

K. L. Daga
President

I am please to know that our Indo-African Chamber of Commerce & Industries is bringing out a Special Supplement on **Republic of Togo** covering various aspects of trade, Commerce & Economy.

Since its inception the Chamber is providing a dynamic institutional link for the promotion of commercial & economic relation between India & the various African countries and in particular Republic of Togo.

We have hosted various delegations from Republic of Togo on many occasions like Elecrama focusing on Energy, Power & Electrical Sectors, IESS focusing on Engineering Sectors, Pharmaxil for Pharmaceutical and Healthcare, I for Afrika focusing on Joint-Venture project & Technology Transfer, Vibrant Gujarat for outsourcing the investors from Gujarat.

There by promoting and protecting the interest of Togolese in India.

The Chamber has also entered into an MOU with Togo Chamber of Commerce & constantly strives the areas of mutual co-operation between India & Togo.

There exist opportunities for Infrastructure project of about US\$ 300 Million for construction of a new city constituted of 5,000 economic housing on a site that is located in Zanguera, near Lome and also project worth \$ 100 million to provide High Energy Bio-mass and Electrical power for rural development, and many more.

I extend my best wishes to the Chamber to scaling greater heights of glory in the years to come.

K. L. Daga
President

concretely modernize the Autonomous Port of Lomé to make a real trans-shipment point in the sub-region of West Africa. To support this process, the government's ambition is to construct a railway line and a highway linking the port of Lomé to the border of Burkina Faso.

Sectors of airport infrastructure, roads, energy, telecommunications, mining and industry are also a part of an ambitious but realistic program that we intend to

the foundations of Institutional Business by:

- A legal and sound system for the reliable execution of contracts and defending the rights of ownership, through an extensive program of modernization of justice during the execution;
- A financial market and a full banking system reform in infrastructure for quality

**INDO-AFRICAN CHAMBER OF
COMMERCE & INDUSTRIES**

Togo is a country where peace and stability prevail. This environment provides any investor a peace of mind and a security to his or her invested capitals.

Togo offers, by its strategic geographical position and thanks to its facilities, an ideal setting for industrial development and trade with the West African sub-region (**ECOWAS**), Europe and North America. Togo is the ocean gateway of the sahelian countries with no coastline (**Mali, Burkina Faso, and Niger**).

Togo has a lot of natural resources that are currently exploited such as phosphate, iron and limestone as well as others that too are yet to be exploited. Togo has a vast fertile agriculture land adaptable for staple foods such as corn, sorgho, beans, yam and cassava, basically for consumption. Other products, for exportation, such as coffee and cacao are also cultivated.

Our engagement with Republic of Togo is distinct and different from any other

country. It is a partnership & friendship which routed well.

Finally I would like to convey my sincere thank to **Mr. AKAKPO Koffi**, Head of Chancellery in New Delhi, for his valued co-operation and support extended to our Chamber in strengthening the Indian Togolese business relationship from time to time. The success of our establishment in Togo is his valued contribution. Organizing various events successfully by inviting Togolese businessmen would not have been possible without the support of my brother Mr. Koffi.

Once again my sincere appreciation to Mr. Koffi for his single handed contribution for this noble cause.

Regards,

Sunanda Rajendran
Secretary General
